Pertemuan 10 : Throtling, Pagination, dan Filtering

1. Dari latihan sebelumnya Simple_LMS, tambahkan implementasi dari Throtling, Pagination, dan Filtering (materi 10).

2. Lakukan pengujian autentifikasi pada endpoint yang dibuat.

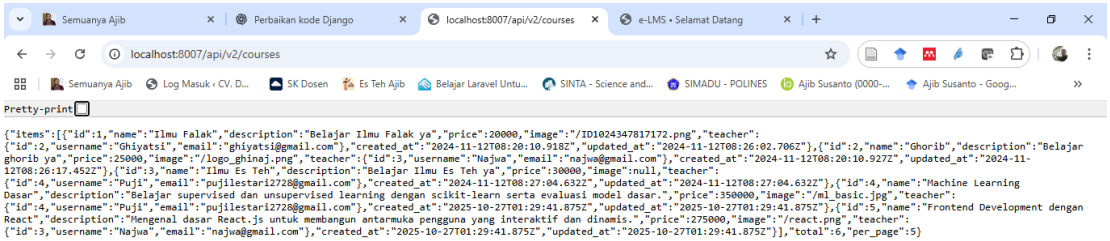

Throtling :

Request 10x akan muncul pesan “Tpp many request”

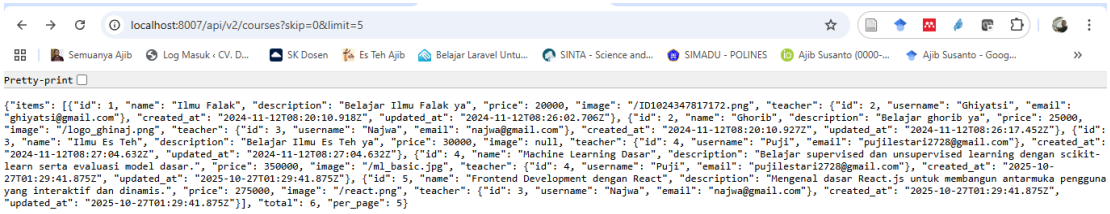

Pagination :

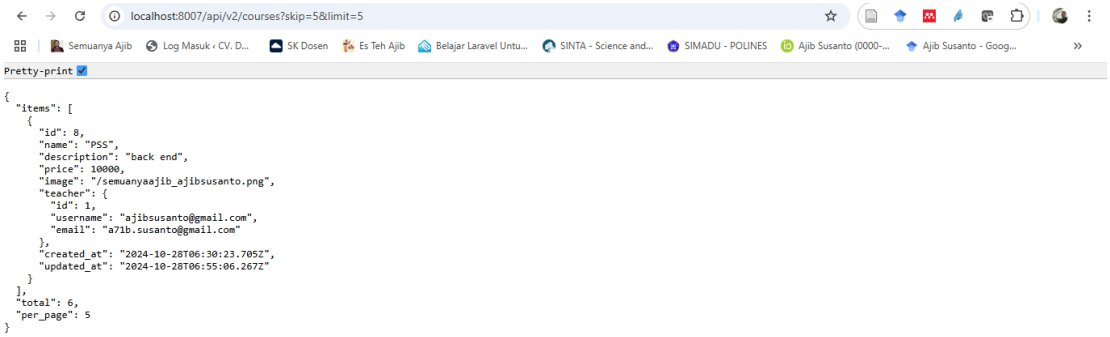

Menampilkan 5 data tiap halaman

Menampilkan halaman 1

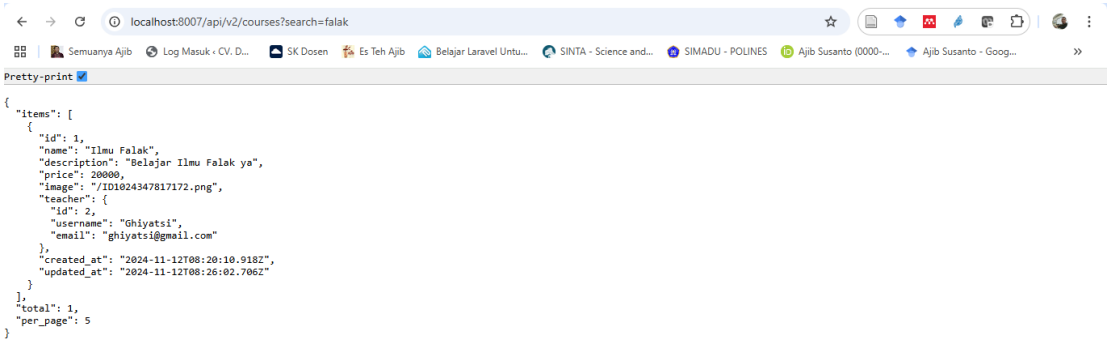

Menampilkan halaman 2

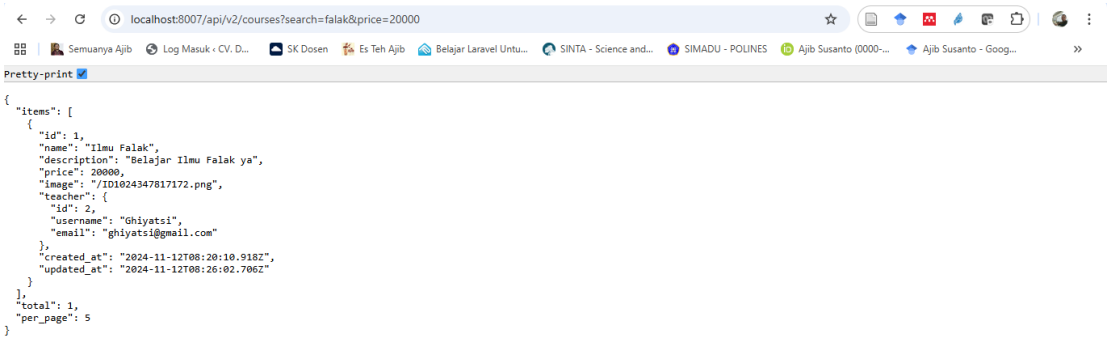

Filtering

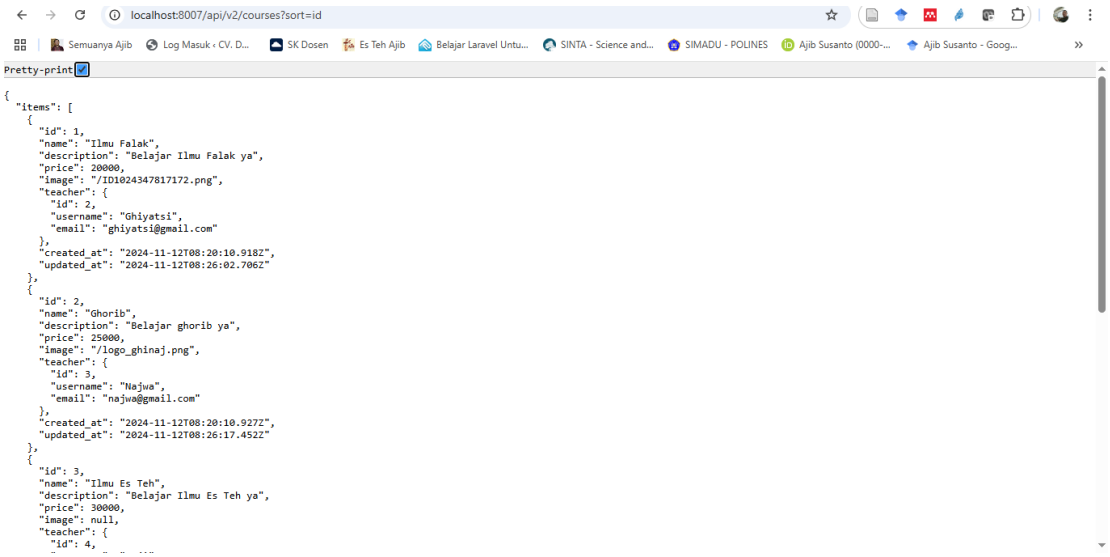

Search berdasarkan nama course :

Search berdasarkan nama course dan harga :

Sorting :

3. Buat HTML untuk menampilkan Courses dengan ada Search, Sorting dan Pagination.
